Day 4:1 - Balmain East Wharf to Stephen St, Balmain

Distance: 1.75km Approximate time: 40 minutes

Condition: Mostly paved footpaths or park paths. Some steps and inclines.

Public Transport: Balmain East Wharf. Darling St buses.

Facilities: No shops or eating places directly on route, but hotels and shops on Darling and Stephen Sts; toilets at Thornton Park.

Walk Guide

From Darling Street Wharf, follow the waterfront path (Bells Foreshore) south into Illoura Reserve. At the far end of the reserve, take the stone (not the wooden) steps around and back up into Edward Street. Turn left into Little Edward Street, following its dogleg around into William Street. At Johnston Street turn right, downhill and follow the waterfront across to and up the wooden steps to Union and Hosking Streets. Turn left at Hosking Street and then right into narrow and steep Little Nicholson Street. About half-way up are two terraced parks on the left, the first less inviting but the second more definitely a little park. Pass through it and turn into Datchett Street. Turn downhill and follow Dachett St to the waterfront. Steps and a pathway lead around behind the Water Police Base to Ewenton Park.

Cross Ewenton Park to its southwest corner and take Grafton Street around its right hand bend to Adolphus Street. Take the first left from Adolphus into Vincent Street and at the intersection with Stephen Street, turn downhill to enter Birrung Park.

Stephen St is a turning point for both the Balmain East Loop Walk L3 and the Birchgrove Loop Walk L2.
Day 4:2 - Stephen St, Balmain to Victoria Rd, White Bay

Distance: 1.75km  Approximate time: 40 minutes

Condition: Mostly paved footpaths or park paths. Some steps and inclines.

Public Transport: Darling St and Victoria Rd buses.

Facilities: Bald Rock Hotel on route, shops close on Reynolds St. No public toilets on route.

Walk Guide

From Grafton St enter Birring Park and follow it along to its end at closed-off Booth Street. Cross the now abandoned Booth Street on the lower side of the grassy terrace in front of townhouses to locate the steel steps leading down to former Lever Brothers industrial buildings and the new apartment blocks around Waterdale Park. Walk along the waterfront.

Waterdale Park is also a connecting point for the Rozelle/Balmain Loop Walk L1 which turns inland at this point.

Continuing along the waterfront, parallel to the wharves, walk to Buchanan Street. At Buchanan Street, the most direct option is to go to its intersection with Robert Street and turn right,
heading for former White Bay Power Station. However there is an excellent short (and refreshing) option, which is to climb the steel stairs and path up to the reserve and through to Mansfield Street.

From the hotel in Mansfield St, turn back towards the reserve above White Bay and follow the concrete pathway at the edge where the pathway ramps down to Robert Street. From here, Robert Street leads out alongside the former White Bay Power Station to Victoria Road.

*From the White Bay (northeastern) end of the footbridge over Victoria Rd near the intersection with The Crescent, follow the shared bike and pedestrian path towards Glebe Island and the Anzac Bridge (be wary of bikes!).*

The curved pedestrian / bike bridge crossing Victoria Rd towards Rozelle Bay connects with the **Rozelle and Blackwattle Bays Loop Walk S1**.

The **Pymont / Darling Harbour Loop Walk S2** connects at the foot of the ramp at Quarry Master Rd.

To continue the Harbour Circle walk, turn south down Quarry Master Rd towards the water and then right at Bank St. After Bank St curves into Bowman St, take the path left towards the water on the waterfront pedestrian promenade which follows the waterfront around to Pirrima (formerly Pymont Point) Park.

**Day 4:4 - Pyrmont Point to Pyrmont Bridge**

**Distance:** 2.75km  
**Approximate time:** 1 hour

**Condition:** Mostly paved footpaths, wharf decks or park paths. Some steps and one lift.
